General Meeting Age-It

May 20-22, 2024

Programme

Version 20-04-2024

Venice
Ca'Foscari University
Campus Economico "San Giobbe"

Age-It: Ageing Well in an Ageing Society

Monday 20/05/2024

Where	Time	Session
Aula Magna San Giobbe	**10.30 - 12.00**	**Welcome Session** **Welcome speeches** **Alessandra Petrucci** (Florence University Rector) **Tiziana Lippiello** (Ca' Foscari University Rector) **Giacomo Pasini** (Head of Economics Department, Ca' Foscari University) **Fabrizio Cobis** (Ministry of University and Research) **Daniele Vignoli** (University of Florence) **Keynotes** Chairs: **Agar Brugiavini** (Ca' Foscari University) and **Filippo Cavallo** (University of Florence) Keynote Speaker: **Francesco Billari** (UniBocconi) Keynote Speaker: **Giuseppe Fico** (Universidad Politécnica de Madrid)
Parallel rooms	**12.15 - 13.30**	**Day 1 Section 1 parallel sessions**
Lunch area	13.30 - 14.30	Lunch buffet
Parallel rooms	**14.30 - 16.00**	**Day 1 Section 2 parallel sessions**
Lunch area	16.00 - 16.30	Coffee Break
Parallel rooms	**16.30 - 18.00**	**Day 1 Section 3 parallel sessions**
	19.00	**Aperitif and dinner**

Tuesday 21/05/2024

Where	Time	Session
Parallel rooms	**9.00 - 10.30**	**Day 2 Section 1 parallel sessions**
Lunch area	10.30 - 11.00	Coffee Break
Parallel rooms	**11.00 - 12.15**	**Day 2 Section 2 parallel sessions**
Aula Magna San Giobbe	**12.15 - 13.30**	**Plenary Session** Chair: **Claudio Lucifora** (Catholic University of Sacred Heart) and **Andrea Ungar** (University of Florence) Keynote Speaker: **James Banks** (Manchester University) Keynote Speaker: TBD
Lunch area	13.30 - 14.30	Lunch buffet
Parallel rooms	**14.30 - 16.00**	**Day 2 Section 3 parallel sessions**
Lunch area	16.00 - 16.30	Coffee Break
Parallel rooms	**16.30 - 17.45**	**Day 2 Section 4 parallel sessions**
	17.50 - 19.00	**Poster session**

4

Wednesday 22/05/2024

Where	Time	Session
Parallel rooms	**9.00 - 10.30**	**Day 3 Section 1 parallel sessions**
Lunch area	10.30 - 11.00	Coffee Break
Parallel rooms	**11.00 - 12.15**	**Day 2 Section 2 parallel sessions**
Aula Magna San Giobbe	12.15 - 13.30	**Closing day plenary** Chair: **Fabrizio d'Adda di Fagagna** (CNR) Keynote Speaker: **Andrea Maier** (National University of Singapore) Keynote Speaker: TBD
Aula Magna San Giobbe	13.30 - 13.45	**Farewell session** Chairs: **Daniele Vignoli** (University of Florence), **Carlos Chiatti** (Age-It Scarl) and **Agar Brugiavini** (Ca' Foscari University)
Lunch area	13.45 - 15.00	Lunch buffet

AGE-IT GENERAL MEETING - VENICE 20-22 MAY, 2024: OVERVIEW OF THE PARALLEL SESSIONS

			Parallel Sessions						
Monday 20/05/2024			4A	5A	9A	9B	10A	10B	work meetings
Where	**Time**	**Session**							
Parallel rooms	12.15 - 13.30	**-D1S1 parallel sessions**	4	4	4	4	4	4	
Parallel rooms	14.30 - 16.00	**-D1S2 parallel sessions**	DMB*	5	5	5	5	5	
			* DATA MANAGEMENT BOARD MEETING						
Parallel rooms	16.30 - 18.00	**-D1S3 parallel sessions**	5	5	5	5	5	5	
Tuesday 21/05/2024									
Where	**Time**	**Session**							
Parallel rooms	9.00 - 10.30	**-D2S1 parallel sessions**	5	5	5	5	5	5	
Parallel rooms	11.00 - 12.15	**-D2S2 parallel sessions**	4	4	4	4	4	4	
Parallel rooms	14.30 - 16.00	**-D2S3 parallel sessions**	DSB+IB	5	5	5	5	5	
			* Dissemination and Stakeholder Board + Innovation Board						
Parallel rooms	16.30 - 17.45	**-D2S4 parallel sessions**	4	4	4	4	4	4	
Wednesday 22/05/2024									
Where	**Time**	**Session**							
Parallel rooms	9.00 - 10.30	**-D3S1 parallel sessions**	5	5	5	5	5	5	
Parallel rooms	11.00 - 12.15	**-D3S2 parallel sessions**	4	4	4	4	4	4	

Monday 20/05/2024

	Time: 12.15 - 13.30	D1S1 parallel sessions

A — **Generations and Inequalities** — **Marco Albertini**

1	Kinship networks, kinlessness and friendship across the life course. An extensive analysis of the Italian case over a 20-year period	Elena Pirani	elena.pirani@unifi.it
2	A repeated measures survey to explore the individual resources, lifestyle, and wellbeing of older adults	Diletta Barbiani	diletta.barbiani@unicatt.it
3	Relational Dynamics and Retirement Transition: A Generational Comparison	Donatella Bramanti	donatella.bramanti@unicatt.it
4	What does "Internet" mean to us as we age? A pluri-tasks investigation on the conceptualization of the technological domain across generations	Chiara Fini	chiarafini@gmail.com

B — **Fostering longevity** — **Emilia Di Lorenzo**

1	Fostering Longevity. Good Practices in Education and Learning for Active Ageing	Vanna Boffo	vanna.boffo@unifi.it
2	Utility-based evaluation in retirement: a focus on reverse mortgage	Alba Roviello	alba.roviello@unina.it
3	The economic activities of the elderly in Italy	Antonio Sanguinetti	antonio.sanguinetti@irpps.cnr.it
4	Aging and financial risk taking: A meta-analysis	Erica Ordali	erica.ordali@unifi.it

C — **Assistance - Virtual Environment** — **Alessandra Sorrentino**

1	Wearable tactile display of softness for virtual reality-based cognitive rehabilitation	Federico Carpi	federico.carpi@unifi.it
2	RG-BioM system: Exploring Reach-to-Grasp BioMechanics in Upper Limb Movements	Pietro Benvenuti	pietro.benvenuti@unifi.it
3	On the development of a multibody simulation platform for Digital Twin of human-robot ecosystem	Michele Perrelli	michele.perrelli@unical.it
4	No country for old men: Reducing Age Bias through Virtual Reality Embodiment in ederly	Stefania La Rocca	stefania.larocca@unimib.it

D — **Mortality and longevity** — **Alessandro Rosina**

1	Modelling mortality trajectories at older ages	Elisabetta Barbi	elisabetta.barbi@uniroma1.it
2	Mortality risk after bereavement in Italy	Chiara Ludovica Comolli	chiara.comolli@unibo.it
3	Inequalities in mortality by individual income: a register-based analysis on the elderly population in Italy	Luisa Frova	frova@istat.it
4	Analyzing Compression of Comorbidity in Italy: A Mixture Model with Regional Random Effects	Angela Andreella	angela.andreella@unive.it

E — **Basic mechanisms of aging biology** — **Andrea Graziani**

1	Unveiling a role for MAPK15 in controlling cellular responses to oxidative stress and diet induced cardiovascular senescence.	Mario Chiariello	mario.chiariello@cnr.it
2	The redox-active defensive Selenoprotein T as a novel stress sensor protein playing a key role in the pathophysiology of heart failure	Anna De Bartolo	anna.de_bartolo@unical.it
3	Biomarkers of aging in frail populations: the prognostic role of TERRA levels in peripheral blood mononuclear cells from elderly colorectal cancer patients	Silvia Giunco	silvia.giunco@unipd.it
4	The potential role of Aquaporin-4 isoforms in aging-related loss of glymphatic functions	Onofrio Valente	onofrio.valente@uniba.it

F — **Geography of Ageing, resources and inequalities** — **Cecilia Tomassini**

1	Resources in old age	Monica Paiella	monicapiacecilia.paiella@inps.it
2	Geographical Analysis of Welfare Expenditure for older individuals in Italy: Autonomy, Context, and Policy Interdependence	Gloria Moroni	gloria.moroni@unive.it
3	Estimating the local differential of dependent older people care needs: The Municipal Potential Care Frailty Index (MPCFI) approach	Carlo Lallo	carlo.lallo@unimol.it
4	Evaluate the Fairness of the Distribution of Health Services for Older People in Italy: A Methodological Approach	Davide Donato Russo	davide.russo@unimol.it

Monday 20/05/2024

	Time: 14.30 - 16.00	D1S2 parallel sessions	

A	**Cognitive impairment and training**	**Giuseppe Bellelli**	
1	The Train the Brain project: the gentle therapy of environmental enrichment against dementia	Alessandro Sale	sale@in.cnr.it
2	Eye-guided video games improve reading in healthy older adults	Roberta Daini	roberta.daini@unimib.it
3	Effects of a new structured multidomain cognitive training headed by executive functions in Mild Cognitive Impairment-MCI	Ezia Rizzi	ezia.rizzi@unimib.it
4	TIME: Episodic memory cognitive training for healthy elderly	Stefania La Rocca	stefania.larocca@unimib.it
5	Insight into the relationship between motor and cognitive symptoms in essential tremor	Giulia Paparella	giulia.paparella@uniroma1.it
B	**Wokplace and Work satisfaction**	**Vincenzo Galasso**	
1	Native/migrant differences in job satisfaction at older ages: insights from Italy	Eleonora Trappolini	eleonora.trappolini@uniroma1.it
2	Skill obsolescence and lifelong learning in the ageing workforce: the effect on job satisfaction	Corrado Polli	c.polli@inapp.gov.it
3	Workers Aging and Basic Psychological Need Satisfaction and Frustration at Work: A Latent State-Trait Examination	Lorenzo Filosa	lorenzo.filosa@uniroma1.it
4	Regulating Ageing: Ageing Workforce Management through Collective Bargaining in Italy and the Netherlands	Dario Raspanti	dario.raspanti@unifi.it
5	Understanding the Risk of Work Related Accidents at Older Ages: Insights from Administrative Data	Elena Cottini	elena.cottini@unicatt.it
C	**Work, fertility and family life**	**Paola Profeta**	
1	Can Policy Reforms Enhance Fertility? An Ex-Ante Evaluation through Factorial Survey Experiments	Raffaele Guetto	raffaele.guetto@unifi.it
2	Remote work: how much of it will remain?	Raluca Elena Buia	elenabui@unive.it
3	Ageing women at work in Europe and the search for work-life balance: combining econometric models and artificial neural	Greta Falavigna	greta.falavigna@ircres.cnr.it
4	The Contribution of Medically Assisted Reproduction to Fertility in Italy	Cinzia Castagnaro	cicastag@istat.it
5	Differences in Medically Assisted Reproduction Treatment Success: Evidence from Careggi Hospital, Italy	Marco Cozzani	marco.cozzani@unifi.it
D	**Assistance - Human-Machine interaction**	**Gianluca Testa**	
1	A Shared Intelligence approach to Wearable Neurorobotics for Elderly Assistance	Emanuele Menegatti	emanuele.menegatti@unipd.it
2	Human-Robot interactions and embodiment of assistive wearable robots	Margherita Bertuccelli	margherita.bertuccelli@unipd.it
3	Ontology-based approach in a conversational system: a multidisciplinary research proposal for assisting informal caregivers	Frida Milella	frida.milella@unimib.it
4	Co-speech gesture synthesis to promote engagement in Human-Robot Interaction	Alessandra Sorrentino	alessandra.sorrentino@unifi.it
5	Enhancing Well-being in Aging Through Physiological Signals and Personality Traits	Raffaele Gravina	r.gravina@dimes.unical.it
E	**Animal models**	**Marco Malavolta**	
1	Longevity interventions targeting telomeres, cellular senescence, and microbiome at the Geriatric Mouse Clinic	Serena Marcozzi	s.marcozzi@inrca.it
2	Aging affects social preference and anxiety responses in zebrafish	Giada Cellot	cellot@sissa.it
3	Irisin enhances memory and spatial learning by modulating neuroplasticity factors in the brain of aged mice	Manuela Dicarlo	manuela.dicarlo@uniba.it
4	Prolonged treatment with irisin counteracts bone loss and muscle fiber degeneration in aged mice	Graziana Colaianni	graziana.colaianni@uniba.it
5	First integrative study of bats' evolutive adaptations provides novel molecular hints for healthy aging	Andrea Locatelli	locatelli.andrea@hsr.it
F	**Event organized by the Data Management Board: programme soon available**		

Monday 20/05/2024

Time: 16.30 - 18.00		D1S3 parallel sessions

A   **Neurodegeneration**   **Fabrizio Chiti**

1	Metabolomic Investigation Of The Effects Of Alzheimer's Molecular Stressors On Neuroblastoma Cells	Leonardo Tenori	leonardo.tenori@unifi.it
2	Serum Neurofilament Light Chain, GFAP and pTau181 as biomarkers in Parkinson's disease patients with and without cognitive deficits	Eleonora Fiorenzato	eleonora.fiorenzato@unipd.it
3	Distinctive longitudinal brain atrophy progression patterns aid classification of frontotemporal dementia variants	Edoardo Gioele Spinelli	spinelli.edoardogioele@hsr.it
4	Strategies to study the biology of aging before neurodegenerative disease onset	Fabrizio Chiti	fabrizio.chiti@unifi.it
5	Mitochondrial copy number in age-related neurodegenerative diseases: preliminary analysis from South Italy late onset Alzheimer disease patients	Francesca Cavalcanti	francesca.cavalcanti@irib.cnr.it

B   **Standards of ageing**   **Rossella Miglio**

1	Triple Standards of Ageing in Europe?	Manuela Stranges	manuela.stranges@unical.it
2	Performance measurement indicators supporting Lean and Safety Management in territorial ambulatory healthcare: a systematic literature review	Anna Tiso	anna.tiso@unipd.it
3	How to ensure the implementability of multi-component interventions to improve active ageing in older people? An overview of the evidence of systematic reviews	Erika Renzi	erika.renzi@uniroma1.it
4	A systematic review and meta-analysis on the effectiveness of cognitive interventions in healthy ageing	Laura Veronelli	laura.veronelli@unimib.it
5	Subjective Survival Beliefs, Cognitive Skills and Investments in Risky Assets	Francesca Parodi	francesca.parodi@unicatt.it

C   **Active ageing and physical environment**   **Francesca Tosi**

1	Getting Older People's Voices Heard. A Quantitative Study Using the Validated Italian Age-Friendly Cities and Communities Questionnaire in Venice, Verona and	Michele Bertani	michele.bertani@unive.it
2	The challenge of active aging: redesigning access paths and living conditions in residential structures for older people	Paolo Contini	paolo.contini@uniba.it
3	Smart Home for Home Care: a case study analysis to identify solutions for integrating assistive technologies into the physical environment	Tiziana Ferrante	tiziana.ferrante@uniroma1.it
4	Promoting Active Aging through Persuasive Communication: Effects of Differently Framed Messages on Attitudes towards and Intentions to Engage in Physical Activity	Laura Picciafoco	laura.picciafoco@unicatt.it
5	Beyond Ageing: Il ruolo dell'ambiente costruito in una prospettiva life-course	Mariangela Perillo	mariangela.perillo@unina.it

D   **Generations**   **Anna Paterno**

1	Intergenerational Equity Index	vincenzo galasso	vincenzo.galasso@unibocconi.it
2	Can Future Generations Be Dominated?	Davide Pala	davide.pala@uniupo.it
3	Mapping Food Habits to build Future Cities of Longevity for the Elderly and Their Caregivers: the case of Cremona territory	Mariarosaria Savarese	mariarosaria.savarese@unicatt.it
4	Isolation or Independence? Investigating Older Adults' Loneliness in Italy	Annalisa Donno	donno@stat.unipd.it
5	Unpacking the active aging construct: Europe's productivist approach and its implications for social justice and elderly well-being	Adriana Cerasuolo	adriana.cerasuolo@unina.it

E   **Ageing and care**   **Elena Pirani**

1	Formal, informal, and technology-mediated care: reframing older adults' learning and care through the lenses of complexity and systems theory	Davide Cino	davide.cino@unimib.it
2	Nurses' roles in caring for older people in domiciliary settings: A Scoping Review Protocol	Isabella Santomauro	isabella.santomauro@uniupo.it
3	Exploring elderly care training needs of migrant family care assistants of older people with dementia in Italy: a qualitative study within the AGE-IT project	Sara Santini	s.santini2@inrca.it
4	Behavioural Responses to Disability Insurance Generosity in a Work-Compatibility Setting	FRANCESCA ZANTOMIO	francesca.zantomio@unive.it
5	The implementation of Family and Community Nursing: a protocol of a qualitative study	Erica Busca	erica.busca@uniupo.it

F   **Adoption/resistance of digital technologies**   **Febo Cincotti**

1	Insights from the Survey on emerging Technological Devices in Age-It	Federica Romagnoli	federica.romagnoli@uniroma1.it
2	Digital technologies for healthy ageing: a new mapping proposal	Stefano Paolo Russo	stefanopaolo.russo@unina.it
3	Technology adoption (or resistance) amongst Italian older carers	Federica Cretazzo	federica.cretazzo@unimib.it
4	The "techno-vulnerability" of Elderly People in the Elder Care Sector	Francesca Rotolo	Francesca.rotolo@unive.it

Tuesday 21/05/2024

	Time: 9.00 - 10.30	D2S1 parallel sessions	

	A	**Smart Healthcare**	**Sandra Costanzo**	
1	Smart Solutions for Healthcare: Optimizing Official Statistics with Enhanced Systems	Filippo Pallucchini	filippo.pallucchini@unimib.it
2	Sensory healthcare environments to promote healthy aging	Elena Bellini	elena.bellini@unifi.it
3	DemiCare – A personalized app-based system to support informal caregivers of older people with dementia	Francesca Gris	f.gris@inrca.it
4	An Ultraportable Ultrasound Imaging System Enhanced by Artificial Intelligence: proof of concept	Valentino Meacci	valentino.meacci@unifi.it
5	Time-Domain functional Near-Infrared Spectroscopy	Lorenzo Spinelli	lorenzo.spinelli@polimi.it

	B	**Life course trajectories**	**Ylenia Brilli**	
1	Old but Gold: Population Ageing and Innovation Incentives	Maria Luisa Mancusi	marialuisa.mancusi@unicatt.it
2	Health status, disability and active ageing in the Italian elderly population (2013-2021)	Paolo Pasetti	paolo.pasetti2@unibo.it
3	Healthy lifestyles, individuals' resources and longevity: a technology based health promotion and frailties prevention during lifespan	Maria Gattuso	maria.gattuso@unibg.it
4	Vulnerability and existential feelings of ageing: personal traits and public implications	Francesca Forlè	forle.francesca@unisr.it
5	Single-parents' subjective well-being in Europe: A multilevel analysis	Andrea Ballerini	andrea.ballerini1@unifi.it

	C	**Assessing the risk of Cognitive impairment**	**Carlo Ferrarese**	
1	A Multi-State Analysis of Disease Trajectories and Mental Health Transitions in Patients with Type 2 Diabetes	Jacopo Lenzi	jacopo.lenzi2@unibo.it
2	Plasma GFAP, NfL and pTau 181 detect preclinical stages of dementia	Assunta Ingannato	assunta.ingannato@unifi.it
3	Executive Functions Screening in Physiological Aging: Pilot Study of a New Instrument and Analysis of Latent Performance Profiles	Davide Crivelli	davide.crivelli@unicatt.it
4	Risk Factors for Cognitive Decline: The Role of Occupational Status	Sara Mondini	sara.mondini@unipd.it
5	The impact of the complex interaction of basic mechanisms on reading decline in healthy aging	Sara Pegoraro	s.pegoraro@campus.unimib.it

	D	**Data modelling for ageing studies**	**Licia Iacoviello**	
1	Modelling the aging-associated loss of proteostasis leading to proteinopathy	Alessandra Bigi	alessandra.bigi@unifi.it
2	Experimental Assessment of Thermodynamic Models: Exploring the Relationship between Physical Activity, Metabolic Behavior, and Aging	Aiman Radhid	aiman.rashid@unifi.it
3	A Graph-based Model to navigate through Population Aging Indicators	Anna Velyka	anna.velyka@unimib.it
4	AGIT, a dynamic microsimulation model for the ageing Italy – Preliminary results	Fabrizio Culotta	fabrizio.culotta@unimib.it
5	Modelling the hyperexcitability preceding Alzheimer's disease by treating neuronal cells with sub-threshold concentrations of amyloid-β oligomers and glutamate	Lorenzo Neri	lorenzo.neri@unifi.it

	E	**Work, fertility and family life**	**Tiziana Nazio**	
1	Causes and Consequences of Retention: How Gender and Age Modulate the Effects	Alessia Valmori	alessia.valmori1@unicatt.it
2	The hidden costs of care: Informal caregiving and health in Italy	Alessandra De Rose	alessandra.derose@uniroma1.it
3	Demographic behavior in Italy (2010-2019): Disentangling the Recent Contribution of Foreign and Italian Women to Crude Birth Rates	Rocco Mazza	rocco.mazza@uniba.it
4	Non-intact Families and Children's Vaccination Coverage: Evidence from Italy	Maria Veronica Dorgali	mariaveronica.dorgali@unifi.it
5	Degree of urbanization at birth and epigenetic variability: a case study on DNA methylation in the Italian population	Vincenzo Iannuzzi	vincenzo.iannuzzi2@unibo.it

	F	**Cohort studies: implications for clinical geriatric practice**	**Patrizia Rovere**	
1	Exploring frailty and aging biomarkers: preliminary insights from the Novara Cohort Study	Silvia Cracas	silvia.cracas@uniupo.it
2	Predictive values of relative fat mass and body mass index of cardiovascular health in community-dwelling older adults: Results from the Longevity Check-up (Lookup)	Ilaria Esposito	ilaria.esposito1@unicatt.it
3	Relationship between neurological, metabolic and functional biomarkers of aging: the OPA study	Chiara Ceolin	chiara.ceolin.1@gmail.com
4	Healthy aging in chronic disease: the role of Self-Perception of Aging. A preliminary study	Fabrizio Mezza	fabrizio.mezza@unina.it
5	Addressing misclassification in the assessment of self-rated health: insights from the elderly population Italy	Maria Felice Arezzo	mariafelice.arezzo@uniroma1.it

Tuesday 21/05/2024

Time: 11.00 - 12.15		D2S2 parallel sessions	

A   **Migration** — **Raffaele Guetto**

1	Ageing-in-place migrants: a glimpse within the category through the lens of marginality and immobility	Sarah Songhorian	songhorian.sarah@unisr.it
2	Does Migration Affect Aging? A Spatiotemporal Analysis in Italy	Roberto Basile	roberto.basile@univaq.it
3	New Cultural Models of Aging: Experiences and Motivations of Italian Retirees Moving Abroad	Alice Lomonaco	alice.lomonaco2@unibo.it
4	Occupational characteristics and living conditions of migrant female domestic workers in Italy and other selected European countries	Giuseppe Gabrielli	giuseppe.gabrielli@unina.it

B   **Life course patways to retirement** — **Gustavo De Santis**

1	Pathways to retirement	Giacomo Pasini	pasinigi@unive.it
2	The Retirement Caring Penalty in Europe	Francesco Maura	francesco.maura@unibocconi.it
3	Should I stay or should I go? The role of fluid and crystallized intelligence on retirement decisions	Nicole Di Natale	nicole.dinatale.ndn@gmail.com
4	Work Retirement Transition: Effectiveness for Active Ageing with a focus on cultural services and third sector	Giovanna Del Gobbo	giovanna.delgobbo@unifi.it

C   **Design digital technologies for the older population** — **Mattia Pistolesi**

1	Exploring the impact of Ambient Assisted Living for older people on caregiver burden: a systematic literature review	Marco Socci	m.socci@inrca.it
2	The process design and development of a digital tool to inform and support informal caregivers	Ilaria Chirico	ilaria.chirico2@unibo.it
3	From the analysis of 'Unmet Needs' to the construction of integrated PDTAs for chronic diseases. Experiences from use cases and implemented digital solutions	Michele Virgolesi	michele.virgolesi@unina.it

D   **Frailty and Multimorbidity** — **Gianluca Aimaretti**

1	The role of rehabilitation for fall prevention in elderly	Angela Palomba	angela.palomba@unina.it
2	Disease prevention and health promotion through healthy lifestyles for psoriatic patients	Mariateresa Cantelli	mariateresa.cantelli@unina.it
3	Glucometabolic outcomes of GLP-1 receptor agonist-based therapies in patients with type 2 diabetes: a systematic review and network meta-analysis	Francesco Giorgino	francesco.giorgino@uniba.it
4	Predictors of incident mobility disability in older adults with physical frailty and sarcopenia: Secondary analysis from the SPRINTT clinical trial	Riccardo Calvani	riccardo.calvani@unicatt.it

E   **Rethinking an ageing society** — **Aleksandra Torbica**

1	Demography and comparative law: a twofold relationship in the analysis of population ageing	Claudia Morgana Cascione	claudiamorgana.cascione@uniba.it
2	From Insights to Impact: Tailored, Age-responsive Strategies For Mitigating Job Insecurity	Luisa Errichiello	luisa.errichiello@cnr.it
3	Employment Incentives for Victims of Gender Violence: The Role of Ageing	Giuseppe Rose	giuseppe.rose@unical.it
4	Sustainable transport infrastructures for the elderly: distributive effects and composite indicators	Elisabetta Venezia	elisabetta.venezia@uniba.it

F   **Basic mechanisms underlying functioning and disease in ageing #2** — **Daniela Corda**

1	An unprecedented proteostatic control of mitochondrial architecture and function by the eumetazoan adapter SQSTM1/p62 in aging pathophysiology	Simone Cenci	cenci.simone@hsr.it
2	Unraveling the role of the alarmin HMGB1 in the aging process	Erika Di Domenico	didomenico.erika@hsr.it
3	The ageing endosome: investigating endosomal function in aged-related changes of post-transcriptional control of gene expression	Ainhoa Viana Alzola	ainhoa.viana@hsr.it
4	Oxidative stress-induced senescence in visceral adipose stem cells: a promising model to investigate visceral adipose tissue aging	Jacopo Venetucci	jacopo.venetucci@uniupo.it

Tuesday 21/05/2024

Time: 14.30 - 16.00		D2S3 parallel sessions	

A	**Work and lifestyle over the life course**	**Massimo Anelli**	
1	Working conditions and health at work over the lifecourse: preliminary evidence from Europe	Paolo Micera	paolo.micera@unicatt.it
2	Understanding spatio-temporal determinants of heterogeinity in Italian morbidity curves using cross-sectional health surveys	Mattia Stival	mattia.stival@unive.it
3	Psychological and physical effects of light-intensity group exercise for community-dwelling older adults	Inaihá Benincá	inaiha.laureanobeninca@unibg.it
4	Managing Age within and between Firms in an Aging Society: Implications for Firms' Efficiency and Workers' Well-being	Enrico Franzetti	enrico.franzetti98@gmail.com
5	Age management – Employers' management of employees based on their age, in Italy	Davide Lucantoni	d.lucantoni@inrca.it
B	**Frailty and Multimorbidity**	**Antonio Cherubini**	
1	Innovative approach to design user-centered digital solutions for Plastic Surgery non-melanoma skin cancer patients	Annachiara Cavaliere	annachiaracavaliere@yahoo.it
2	Serum GDF-15 and NFL as predictive biomarkers of multimorbidity and short and long term mortality in geriatric patients	Francesco Piacenza	f.piacenza@inrca.it
3	An IT-supported multidimensional approach to screen for frailty in community-dwelling older adults	Vincenzo De Luca	vinc.deluca@gmail.com
4	Gendered effect of Partners Health on Silver Splits in Europe	Giammarco Alderotti	giammarco.alderotti@unifi.it
C	**Muscle aging**	**Stefano Salvioli**	
1	Mitochondria network as a central hub in the control of proteostasis and sarcopenia	Marco Sandri	marco.sandri@unipd.it
2	Effects of the titin gene mutation FINmaj on the performance of the soleus muscle investigated in a mouse model	Marco Linari	marco.linari@unifi.it
3	Circulating and muscle-specific levels of GDF15 as markers of loss of muscle mass and strength	Maria Conte	m.conte@unibo.it
4	Chronic inflammation-induced impairment of skeletal muscle cAMP signaling drives mitochondrial dysfunction and sarcopenia in vitro and in vivo	Andrea Graziani	andrea.graziani@unito.it
5	Beyond genetics: deciphering the regulatory network that governs muscle stem cells heterogeneity to enhance muscle repair in diseased and aged conditions	Gabriella Minchiotti	gabriella.minchiotti@igb.cnr.it
D	**Health and prevention**	**Maddalena Illario**	
1	RELiability and ValiDity of the eSPPB in AssEssing Frailty in Older PatientS with HearT Disease - The ELDEST study protocol	Diego Longo	diego.longo@unifi.it
2	Motivational profiles in fall prevention: a preliminary study	Daniela Lemmo	daniela.lemmo@unina.it
3	A noninvasive method for early detection of prostate cancer by sniffing urine odour via electronic nose and GC/MS	Simonetta Capone	simonetta.capone@cnr.it
4	Role of Carotid Sinus Hypersensitivity in predicting the mechanism of spontaneous syncope – Preliminary data from the REMOTE 1 sub-study	Giulia Matteucci	giulia.matteucci@unifi.it
5	Cancer screening programs and their effects in Europe: Evidence from SHARE data	Martina Celidoni	martina.celidoni@unipd.it
E	**Human Capital and work**	**Mario Paolucci**	
1	Index of ageing at work	Claudio Lucifora	claudio.lucifora@unicatt.it
2	Supply of Tertiary Education and Workers' Long-run Outcomes	Ylenia Brilli	ylenia.brilli@unive.it
3	Innovation technologies, skills development and age management to enhance the employability of older workers in small and medium-sized enterprises	Valeria Iadevaia	v.iadevaia@inapp.gov.it
4	Navigating Insecure Labour Markets through Social Dialogue: A Qualitative Survey of Measures for Older Workers in Italy	Tania Toffanin	tania.toffanin@ismed.cnr.it
5	Navigating the Aging Workforce: Mapping Dynamics of Successful Aging and Retirement	Arianna Costantini	arianna.costantini5@unibo.it
F	**Event organized by the Dissemination and Stakeholders Board + Innovation Board: programme soon available**		

Tuesday 21/05/2024

	Time: 16.30 - 17.45	D2S4 parallel sessions	
A	**Frailty and Multimorbidity**	**Guido Iaccarino**	
1	Analysis of multimorbidity patterns via graphical models	Erika Banzato	erika.banzato@unipd.it
2	Does using technological devices motivate older adults to engage in physical activities? A systematic review and meta-analysis	James Dawe	james.dawe@uniroma1.it
3	Multi-domain Interventions to improve the COgnitive and fUNctional well-being of elderly individuals in residential sTructures (I COUNT)	Marianna Noale	marianna.noale@in.cnr.it
4	Management of polypharmacy in Italy: a systematic literature review	Lara Perrella	lara.perrella@unina.it
B	**Cognitive impairment**	**Rosa Liperoti**	
1	IN-TeMPO: ItaliaN study with Tailored Multidomain interventions to Prevent functional and cognitive decline in community-dwelling Older adults	Luca Cuffaro	luca.cuffaro@unimib.it
2	The "sound" study protocol: a non-pharmacological music-based intervention for older people with dementia and dementia care professionals	Alessandra Merizzi	a.merizzi@inrca.it
3	Using finger-tracking technology to investigate reading decline in ageing	Vito Pirrelli	vito.pirrelli@ilc.cnr.it
4	Technological solutions for topographic disorientation and personal safety alarms: experiences in county modena	Antonella Rita Vaccina	a.vaccina@ausl.mo.it
C	**Life Course patways to retirement**	**Gianfranco Santoro**	
1	Occupation-specific health hazards and trajectories to retirement	Irene Mammi	irene.mammi@unive.it
2	Transitions in older age: an interdisciplinary meta-narrative	Laura Formenti	laura.formenti@unimib.it
3	Italian Employment Landscapes: Unveiling Diverse Career Trajectories	Petru Crudu	petru.crudu@unive.it
4	Anything can happen… or maybe not? Analysis of the trajectories of the young old	Lucia Zanotto	lucia.zanotto@unibo.it
D	**Healthy Ageing**	**Fabrizio Faggiano**	
1	Conceptualisation and Measurement of Healthy Ageing: Insights from a Systematic Literature Review	Andreea Piriu	andreea.piriu@unibocconi.it
2	Multidimensional stratification of informal caregiving toward older parents	Francesca Zanasi	francesca.zanasi5@unibo.it
3	Who takes care of old migrant care workers In Italy? The challenges of Ageing	Lucrezia Alice Moschetta	lucreziaalice.moschetta@studenti.unipd.it
4	Comparing and Contrasting Rural versus Urban Health Care Access, Quality, and Outcomes for elderly patients	Paolo Berta	paolo.berta@unimib.it
E	**Monitoring**	**Luca Francioso**	
1	Rationale and concept for wearable sensor monitoring of non-professional elderly subject caregivers	Alessandro Silvani	alessandro.silvani3@unibo.it
2	Ethical and legal implications of the use of health monitoring wearable devices: a scoping review protocol	Emma Capulli	emma.capulli2@unibo.it
3	A well-being monitoring hub for the elderly with the assistance of artificial intelligence (AI)	Zaccaria Del Prete	zaccaria.delprete@uniroma1.it
4	Smart wearable technologies in the healthcare context: safety and monitoring	Alessandro Leone	alessandro.leone@cnr.it
F	**Cell senescence advances in ageing research**	**Antonino Colanzi**	
1	The essential amino acid transporter LAT1 (SLC7A5) is a copper transporter in the form of Cu-histidinate complex: potential role in cellular senescence	Mariafrancesca Scalise	mariafrancesca.scalise@unical.it
2	Microglia senescence in painful neuropathies: characterization of the senescent phenotype and identification of new senotherapeutic interventions	Chiara Sasia	chiara.sasia@unifi.it
3	Cellular senescence: unravelling the regulation of the senescent secretory phenotype	Rosaria Di Martino	r.dimartino@ieos.cnr.it
4	Cellular senescence in metabolic patients	Lucilla Crudele	lucilla.crudele@uniba.it

Wednesday 22/05/2024

Time: 9.00 - 10.30	D3S1 parallel sessions

A **Principles of Ageing Biology** — **Marco Sandri**

1	The Novara Cohort Study (NCS): rationale, purpose, and pilot results	Daniela Capello	daniela.capello@med.uniupo.it
2	Unveiling Ageing and Idiopathic Pulmonary Fibrosis: Advancing Molecular Understanding via Next Generation Sequencing	Sofia Pavanello	sofia.pavanello@unipd.it
3	Different effects of Aβ oligomers on human astrocytes from healthy subjects and Alzheimer's disease patients	Elisa Bientinesi	elisa.bientinesi@unifi.it
4	Unravelling the link between uromodulin dosage, aging and risk of chronic kidney disease	Luca Rampoldi	rampoldi.luca@hsr.it
5	Pharmacological activation of the HIF-1a pathway regulates satellite cells fate during aging through histone lactylation	Federica Cirillo	federica.cirillo@grupposandonato.it

B **Re-thinking an ageing society** — **Elisabetta Galeotti**

1	Demographic literacy in aging societies. Conceptualization and descriptive evidence	Daniela Bellani	daniela.bellani@unicatt.it
2	Solidarity and ageing society: a philosophical overview	Alessandro Volpe	volpe.alessandro1@hsr.it
3	Ageism in health and social care? Preliminary findings from a qualitative study in Northern Italy	Elena Allegri	elena.allegri@uniupo.it
4	A Relational Account of Democratic Equality in an Ageing Society	Enrico Biale	enrico.biale@uniupo.it
5	Immigrant presence in the Italian Health System. History of a Slow Discovery	Patrizia Farina	patrizia.farina@unimib.it

C **Physical Functioning** — **Antonio Cherubini**

1	Aging with disability: a scoping review for framing long-term services and supports	Mabel Giraldo	mabel.giraldo@unibg.it
2	Fat mass predicts frailty and sarcopenia: prospective data from the FRASNET study	Sarah Damanti	damanti.sarah@hsr.it
3	Physical Performance strongly predicts all-cause mortality risk in a real-world population of older diabetic patients: machine learning approach for mortality risk	Liana Spazzafumo	l.spazzafumo@inrca.it
4	BENE: Brain, Exercise, and Nutrition for Elderly	Gioi Spinello	gioi.spinello@unipd.it
5	Reliability and predictive value of an instrumented version of the SPPB (iSPPB), derived from markerless motion analysis and strength platform, in persons with stroke outcomes - The iSPPB-stroke study protocol	Francesca Cecchi	francesca.cecchi@unifi.it

D **Frailty and Multimorbidity** — **Francesco Landi**

1	Age disparity in couples and the sexual and general health of the male partner	Clotilde Sparano	clotilde.sparano@unifi.it
2	Effect of Different Levels of Physical Activity on Neuromuscular Health Across the Lifespan	Marco Narici	marco.narici@unipd.it
3	Multimorbidity patterns at older ages: A study using graphical model and network analysis	Linh Hoang Khanh Da	linhhk.dang@unibo.it
4	Longitudinal Trajectories of Multimorbidity in Aging Individuals from the SHARE and ELSA Studies	Elisa Fabbri	elisa.fabbri0909@gmail.com
5	Optimizing Prevention of hospital-acquired disability Through Integrated Multidomain interventions: the Age-IT project	Chukwuma Okoye	chukwuma.okoye@unimib.it

E **Ageing & Intergenerational sustainability** — **Valeria Bellini**

1	Earning ability and workers' ageing	Lorenzo Cappellari	lorenzo.cappellari@unicatt.it
2	Seniors' preferences on supporting intergenerational sustainability. Evidence from Italian Baby-Boomers	Andrea Antonini	andrea.antonini@unicatt.it
3	Elderly age as a value and as a limit in parent-child relationships	Linda Canuto	linda.canuto@unive.it
4	Living in the Italian Inner Areas: the support network of childless older people. Evidence from survey data 1998, 2003, 2003 and 2016	Eleonora Meli	elmeli@istat.it
5	Characterising Life-Cycle Dynamics of Annual Days of Work, Wages, and Cross-Covariances	Koray Aktas	koray.aktas@unive.it

F **Policy issues** — **Laura Formenti**

1	Aligning policies and strategies on active and healthy ageing to make countries resilient to the demographic transition: a survey of the directions of European International Agencies	Fabrizio Faggiano	fabrizio.faggiano@uniupo.it
2	Promoting regional policies for informal carers of older people in Italy: an example of participatory approach based on research and stakeholder engagement	Federico Sofritti	f.sofritti@inrca.it
3	Silver Awareness Sustainability: Towards the Construction of a Checklist for Sustainable Development in an Aging Society	Piermarco Aroldi	piermarco.aroldi@unicatt.it
4	European Policies for Supporting Caregivers of Older Adults with Long Term Care Needs: A Mixed-Methods Systematic Review	Eva Bei	eva.bei@unibo.it
5	How to ageing well in a fragmentized National Health System? An analysis of the regional legislation on active ageing in Italy	Michele Marzulli	michele.marzulli@unive.it

Wednesday 22/05/2024

Time: 11.00 - 12.15		**D3S2 parallel sessions**	

A   **CVD in the ageing population**   **Fabiola Olivieri**

1	A blood molecular signature to identify the progressive stenosis of carotid artery in old patients: a pilot study on asymptomatic and symptomatic inpatients	Miriam Capri	miriam.capri@unibo.it
2	Increased plasma cfDNA levels associated with higher risk of death in geriatric cardiovascular patients	Maurizio Cardelli	m.cardelli@inrca.it
3	The Effects Of Direct Oral Anticoagulants And Vitamin K Antagonists On The Serum Profiles Of Elderly Atrial Fibrillation Patients	Alessia Vignoli	alessia.vignoli@unifi.it
4	Stroke in aging and the role of neutrophils	Marco Bacigaluppi	bacigaluppi.marco@hsr.it

B   **Prevention**   **Pietro Siciliano**

1	The Analysis of Digital Biomarkers for Predicting Mild Cognitive Impairment through a Virtual Waiting Room	Irene Alice Chicchi Giglioli	irene.chicchi@unicatt.it
2	Sensors integration in microphysiological systems and AI-enabled high-content strategies: towards a digital twin for preclinical studies	Elisa Sciurti	elisa.sciurti@imm.cnr.it
3	Comprehensive Gait Analysis Using an Ensemble of Wearable Sensors	Filippo Palumbo	filippo.palumbo@isti.cnr.it
4	Multimodal systems for the characterization of neurophysiological correlates during cognitive and emotional tasks	Lorenzo Frassineti	lorenzo.frassineti@unifi.it

C   **Epigenetics of ageing**   **Giuseppe Passarino**

1	The contribution of telomere biology to aging	Fabrizio d'Adda di Fagagna	fabrizio.dadda@igm.cnr.it
2	Methylome analysis of adipose precursor cells (APC) of First-degree relatives (FDR) of type 2 diabetics (T2D) subjects	Veronica De Rosa	veronica.derosa@cnr.it
3	The Ying Yang of retrotransposons: from junk to RNA tools for antiaging and tissue regeneration	Valerio Orlando	valerio.orlando@kaust.edu.sa
4	A Targeted Epigenetic Model for Biological Age Estimation	Mirella Aurora Aceto	mirellaaurora.aceto@unical.it

D   **Data and methods for ageing research**   **Cinzia Castagnaro**

1	The determinants of health expenditure: A machine learning approach	Nicola Caravaggio	nicola.caravaggio@unimol.it
2	Benchmarking Generative Models for Synthetic Demographic Data Generation	Navid Nobani	navid.nobani@unimib.it
3	Topic modelling of health public plans via reduced latent space clustering	Lorenzo Schiavon	lorenzo.schiavon@unive.it
4	The role of Family and Community Nurse in Europe: An International SURVEy (SURVEIFEC)	Erika Bassi	erika.bassi@uniupo.it

E   **Creating supportive environments for an active and healthy ageing**   **Giovanni Lamura**

1	Young people with foreign background: a description through the sample surveys carried out by Istat	Cinzia Conti	ciconti@istat.it
2	Housing and residential mobility along the ageing process in Italy	Micol Bronzini	m.bronzini@staff.univpm.it
3	Older people and the right to quality housing. The co-housing strategy for countering relational poverty	Letizia Carrera	letizia.carrera@uniba.it
4	Aging and urbanization: investigating different "aging in place" models in the city as an opportunity to empower individuals' healthy longevity	Stefania Butti	stefania.butti@unibg.it
